INTEREST: Dioxin, stored material

FACILITY: Syntex Agribusiness Incorporated, MO-0002356

LOCATION: Verona, Missouri

PRODUCTS: Organic food additives, choline based vitamins.

SYNOPSIS: 1971 -

Waste oils containing trichlorophenol still bottom wastes and dioxin were used for dust control on Arkansas horse arenas. Horses, pet and birds killed.

November 18, 1976 -

EPA investigation finds non-compliance with BOD₅, COD and pH limitations. Dioxin material is well stored.

February 24, 1978 -

EPA inspection finds NPDES record keeping deficiency.

April 10, 1978 -

EPA investigation finds non-permitted discharge (since eliminated), TSS, temperature and pH exceeded NPDES limitations.

COMMENT: Dioxin is contained in a steel storage tank that is protected by a concrete wall and tiedown wires from accidental spillages. EPA's mobile incinerator is scheduled to destroy dioxin containing waste in 1980.
